

# VOID FILLING PAPER

BOXFILL

ROLLFILL

SHEETFILL

*Papers converting*

**Paper** is an excellent **ecologic material** which thanks to its properties **perfectly fits for packaging and filling free space in parcel.**

The economic void filling paper perfectly protects the product and adjusts itself to package. **The wide range of papers** we have in our offer enables selection of proper kind of filling material to protect the goods.

It is possible to order different types of paper depending on the goods to be packed.

**BOXFILL**

Void filling paper packed in cardboard box is an excellent solution to protect parcels, available as recycled or Kraft paper.

**ROLLFILL**

The economic void filling paper in roll for packing in large scale, available as recycled paper.

**SHEETFILL**

The universal void filling paper in sheet that could be used as fill or simply packaging of goods, available as recycled or Kraft paper.
